

The Vice President is the Guardian of the Data. All the data you enter into your app will only be part of the official PALMS data, and therefore show up in the Power of One activity reports once the VP has reconciled the data and “entered PALMS.”

The data you enter stays in “Draft” status until the VP goes in, enters attendance information, confirms visitors and submits the PALMS – which changes the status to “Completed.”

This is data entered into the app from 7/15/25 after 9AM to 7/22 at 6:30AM, when I took the screenshot.

Data entered up until 9AM on 7/22 will be attributed to the 7/22 week. After 9AM a new DRAFT will be created to hold the next week's data
