

The Vice President is the Guardian of the Data. All the data you enter into your app will only be part of the official PALMS data, and therefore show up in the Power of One activity reports once the VP has reconciled the data and “entered PALMS.”

The screenshot displays the BNI connect web application interface. At the top right, it says "Happy Connecting Kim Kitchen" with a "Regional Website" button and an "Options" dropdown menu. The main navigation bar includes "HOME", "NETWORK", "OPERATIONS", "REPORTS", "TOOLS", and "ADMIN". On the right side of the navigation bar, there are icons for notifications (16), search, print, help, and refresh. Below the navigation bar, there are three dropdown menus: "United States", "OH Northeast", and "Ctrl + Alt + Elite Chapter of BNI". The main content area is titled "View Chapter PALMS Summary" and includes "Enter PALMS" and "Back" buttons. Below this, there is a section for "Enter From Date" with a date input field set to "03/04/2025" and a "View Reports" button. The main data area shows a table with columns for "Meeting Date", "Entered By", "Status", "PALMS entry type", and "Date Entered". The table contains four entries, with the last one in "Draft" status. At the bottom, there is a pagination control showing "Showing 1 to 4 of 4 entries" and buttons for "First", "Previous", "1", "Next", and "Last".

Meeting Date	Entered By	Status	PALMS entry type	Date Entered
03/25/2025	William Ealy	Completed		04/03/2025
04/01/2025	William Ealy	Completed		04/03/2025
04/08/2025	William Ealy	Completed		04/08/2025
04/15/2025	Sys Admin	Draft		04/08/2025

Showing 1 to 4 of 4 entries First Previous 1 Next Last

The data you enter stays in “Draft” status until the VP goes in, enters attendance information, confirms visitors and submits the PALMS – which changes the status to “Completed.”

This is data entered into the app from 4/8/25 after 9AM to 4/14/25 at 4:30PM, when I took the screenshot.

Data entered up until 9AM on 4/15 will be attributed to the 4/15 week. After 9AM a new DRAFT will be created to hold the next week's data

BNI connect.
